Distinguished Business Partners, Valuable Colleagues and Employees,

Kanat Çelik's “**High-Trusted Service and Production**” vision adopted for 37 years has proven successful, helping us become the preferred company in global area. We are happy to be one of the most respected and favorite institutions with our activities both in Turkey and abroad. We will keep raising the bar even further in future, and continue along this path embracing innovations and changes. We will continuously renew and improve our strategies, business segments and our organization, staying true to our core values. We will relentlessly remind all our colleagues, partners and customers that being reliable is our essential objective, and that we will need to comply with our superior business ethics and honest working principles to achieve such objective.

The growth and welfare of our country have always been the preconditions for our company's development. We strongly believe in the fertility of our country and its future growth, which motivates us and gives us hope.

It is always our first priority to open up to new markets and increase our export sales by supplying Turkish steels. We are planning our work and investments in this direction.

On behalf of my colleagues and myself, I would like to thank you for your trust and cooperation in us on this journey.

He was born in 1951 in Iskenderun, Hatay. He graduated from Yıldız Technical University Chemical Engineering Department in 1976. He started to work at Unilever Turkey in 1978 as an operating engineer. In 1983, he started to perform the iron and steel industry with his family. He is married to Meral Uyar and has two children. He speaks Arabic in advanced, English and French in beginner.

Şevket Bozdaş

Chairman of the Board,
Chemical Engineer

SPECIAL STEELS FOR SPECIAL CUSTOMERS

Kanat Çelik, since 1984 with the experience comes from 1950s

about us

Values

Kanat Çelik is a family company. We are working with the trust and business ethics that comes from generations.

- Passion
- Respect
- Work Ethics And Truth
- Discipline
- Social Responsibility

Bozdaş Family owned Kanat Çelik performs in the steel industry as a manufacturer*, trader and stockist since 1980s. As a member of the third generation of an industrialist and merchandiser family who performs since 1950s, our main aim is elevating our success in domestic market and having a voice in the global area by providing Turkish materials to the world. To reach this aim, our basic principles are ethic and added value.

culture

"we are by your side"

Our company culture is built on customer focus.

SINCE
1984

*Productions are outsourced to family companies Please check the page 12.

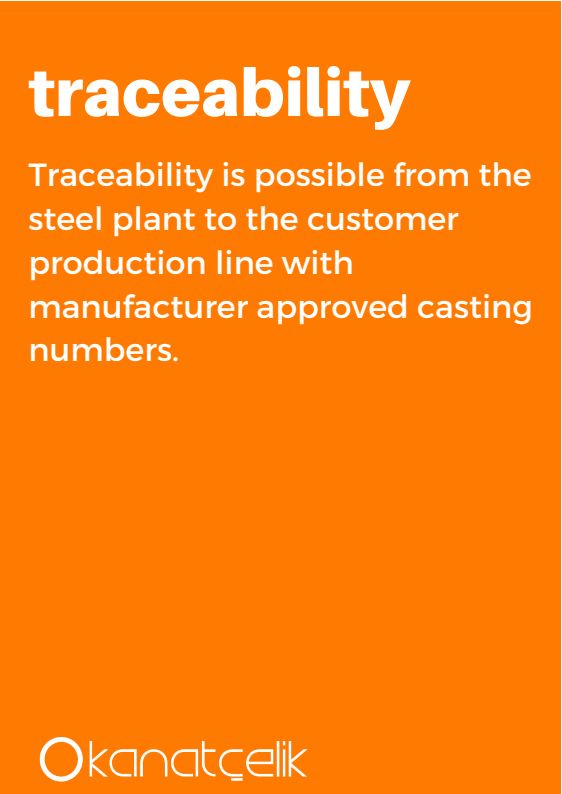

various industries

Our products make a significant contribution to making life easier and improving people's living standards around the world. Kanat Celik offers products and services to 15 sectors. (Automotive, machinery, defense, agriculture etc)

custom manufacturing solutions

According to customers' technical specifications, Kanat Celik may supply hot rolled and cold rolled (cold drawn, peeled or ground) materials. Productions are made in factories of which sister companies are owned. In this way, we can offer short delivery times and advantageous prices.

vertical cutting

Kanat Çelik provides cutting service to materials provided. For more information please check the page 16.

wide product range

In order to meet the different demands of the manufacturing industry, products in various steel groups and sizes are kept in stock. Products in special specification are supplied through import. For more information please check the page 8.

high quality product and service

Unless otherwise stated, all products are certified, 100% ultrasound controlled and guaranteed for cracks. Kanat Celik has a quality management system in compliance with ISO 9001:2005 requirements since 2007.

certification & tests

All products are shipped with a 2.1 or 3.1 certificate. Certificates includes chemical and/or mechanical properties. Upon request, it is possible to test by taking samples from 3rd party independent laboratories. For more information please check the page 17.

foreign trade

Products outside of our production or supplying capability and products not found in Turkey are imported. All imported products are 1st Class and Certified. Kanat Celik exports to more than 20 countries. For more information please check the page 7.

SHAPE THE WORLD WITH

EXPORT

Turkish Steel

While Turkey was the world's 10th biggest steel producer in 2001, she has become the 7th biggest producer globally and largest steel producer in Europe in 2020. In fact, she was the third fastest growing steel producer in the world between 2001 and 2011, after China and India.

Our primary goal is to supply Turkish steel to all over the world. In this direction, we work together with exporter associations. We ship to the automotive spare parts manufacturer in India and the fittings manufacturer in Mexico on the same day. This makes us happy and encourages!

are you in doubt about us?

Don't worry! We are here to trade since 1984. For new potential customers we provide documents below:

documents: **Certificate of Activity**
issued by Istanbul Chamber of Commerce (with e-signature)

Exporter Certificate
issued by Istanbul Mineral and Metals Exporters' Association (with e-signature)

Reference Letter
issued by one of Turkish State Banks (with stamp & signature)

PRODUCTION

Kanat Celik is not a manufacturer company. All productions are outsourced to factories that are sister companies. Thanks to this we offer to you very competitive prices and short delivery time. And also, we import billet and wire rod to make contract manufacturing in Turkey. This page only shows the dimensions that we can outsourced to our sister companies. Products outside the production range, are supplied from the domestic market or by importing. Please check the page 8 for all available products.

SERVICES

■
Your quality management can rely on us! Our Special Services include:

- vertical cutting
- packaging
- test & certificates

vertical cutting

whether one piece or much more

Kanat Çelik has 10 vertical band saw machine at its cutting center. We provide cutting service for sizes 20 mm up to 1010 mm

Advantages

- Buy as much as you need
- No waste piece costs
- No extra cutting costs
- Saving time with already cut pieces
- etc

packaging

we care your materials

Packaging is an important part of our commitment to quality.

With the packaging process we work to minimize any damage that might occur while shipping.

Standard packaging is applied with steel strapping to bundles.

In addition, we have built the capability to individually tube, individually collar, paper wrap the bars, use a wooden box or any combination of these options depending upon our customer's preferences.

test & certificates

Mill Test Certificates

We provide inspection certificates (2.1, 3.1) in order to have full traceability regarding country of origin and manufacturer.

Ultrasonic Tests

Specific demands require special measures: On request we can arrange testings of the products by ultrasonic in order to ensure the highest quality.

Third Party Inspections

On request we can arrange all necessary approvals by classification- and other audit companies (like TUV, SGS etc)
